MBTI Pets

MBTI Choose a pet that better suits your personality

I

Introverted (energy from solitude, not socializing)

N

Intuitive (focuses on possibilities/ abstract patterns, not details)

T

J

Thinking (decides via logic, not emotions)

Judging (prefers structure/plans, seeks certainty)

FEEL SUITABLE

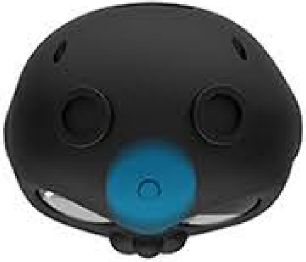
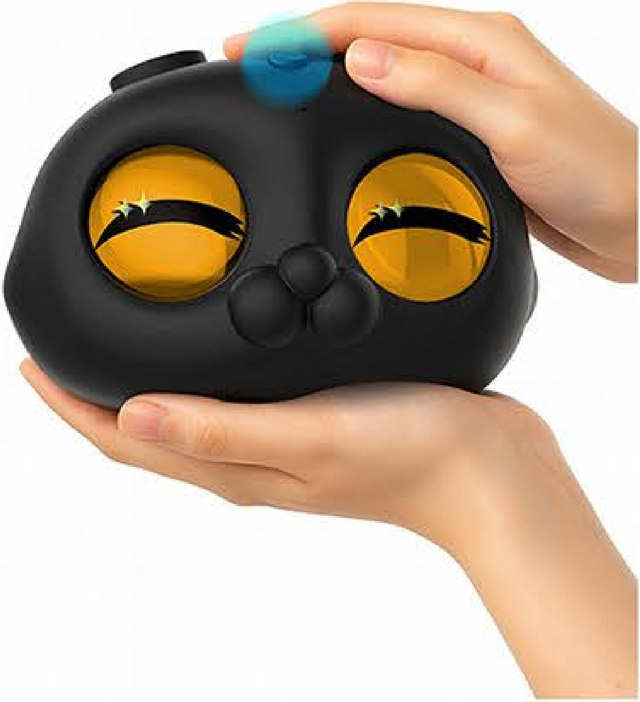
Pet Conversation

One hand holds just right

two conversation modes

For Button Conversation: Press the small top button—it can't be activated via the wake word, nor interrupted by it. For Free Conversation: The wake word works and can interrupt it.





1 Button Conversation

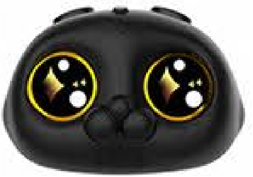
Use in noisy environments

2 Free Conversation

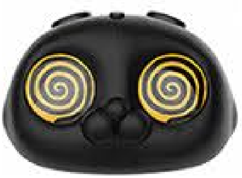
Ideal for button use, no need to press to interrupt conversations

emotional expression

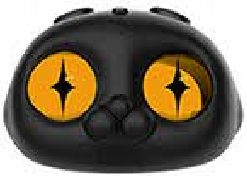
Convey diverse emotions through the eyes



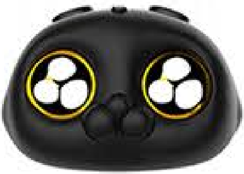
Happy



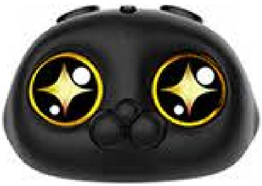
Dizziness



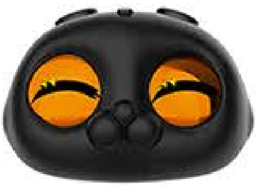
Surprised



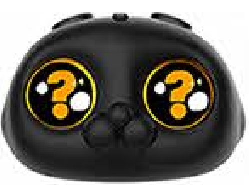
Moved/sad



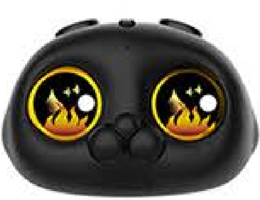
Amazed



Glad



Question



Angry

Touch sensing

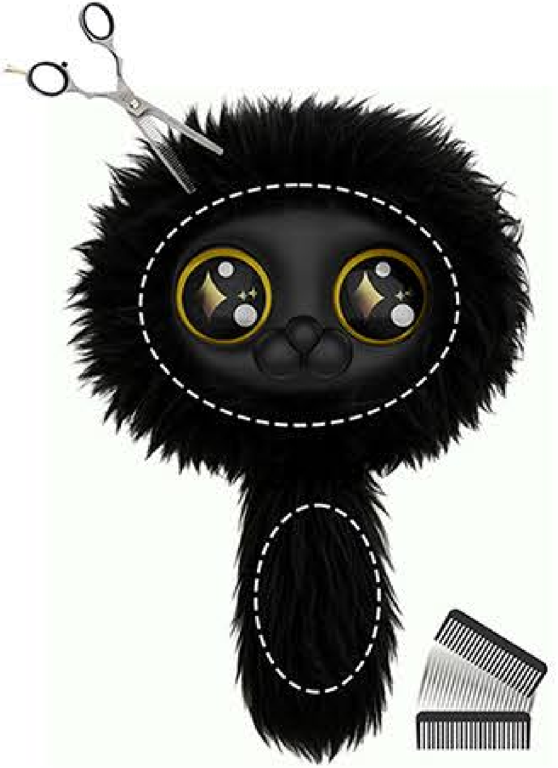
Gently touch its head, and the cat will give emotional and vibrational feedback!

Shake it

If you shake it, the cat will get dizzy

How to put on the leather case?

Find the large and small openings on the leather case. The small one aligns with the charging port on the cat device's back, and the large one with its face. Slide the device into the case from the side. Once fully inserted, adjust its position, and you're done.



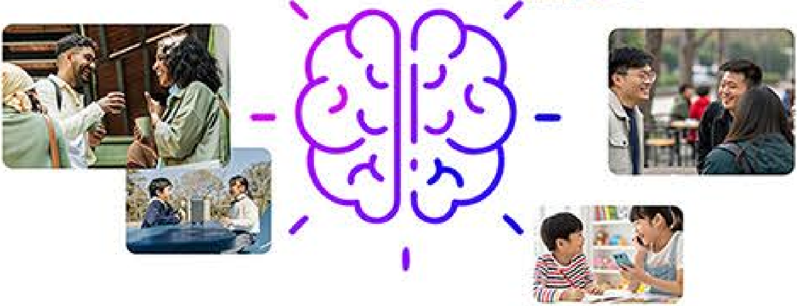
Add maintenance suggestions

Trim his fur with scissors and comb it to keep him neat.

omnidirectional sound pickup

Centered on omnidirectional sound pickup, this cat product captures sound from all directions at 360°, breaking the "positional limitations" of traditional directional sound pickup.

Is capable of long-term memory retention



APP to adjust your pet
