THEATER SHORT

Gugu and the little girl

In the quiet forest, there lives an owl named Gugu. During the day, it dozes on an old tree and listens to stories. At night, it transforms into a “Night Sky Explorer”.

One night, Gugu spots a strange flash at the forest edge. It turns out to be a lost little girl crying. It taps her gently with its wings, cooing “Gugu” to guide her, and sends the girl back to the small town.

After that, the girl often brings storybooks to find Gugu, sharing the outside world. Gugu also tells secrets of the night sky — the moon boat carrying sweet dreams, stars hosting concerts... A girl and an owl turn loneliness into star - lit sweetness, making the night of their encounter a glowing story in their hearts.

PRODUCT DETAILED INFORMATION

Product Name:	GUGU owl AI Toy
---------------	-----------------

Material:	Plush fabric: 100% polyester fiber plastic movement electronic components
-----------	---

Product Size:	33cm * 15cm * 16cm
---------------	--------------------

Access Model:	Large models such as Doubao Tongyi Qianwen, ChatGPT, Grok3
---------------	---

Charging Interface:	USB Type-C
---------------------	------------

Battery Capacity:	18650-1200mAH
-------------------	---------------

Conversation Mode:	Button dialogue, wake-up dialogue
--------------------	--------------------------------------

Network-connected APP:	tuya smart
------------------------	------------
